VOLUME 23

SUBJECT AND TITLE INDEX 1967

A

1. ABS

An Interdisciplinary Approach to Automotive Plastics, P. Weiss, *October, p. 20*
Creep of Thermoplastics in the Glassy Region: Stress as a Reduced Variable, R. L. Bergen, Jr., *October, p. 57*
Development of Plastics Automotive Radiator Grilles, J. R. Madden, *October, p. 28*
Environmental Stress and Strain Testing of High Impact Polystyrene and ABS, T. J. Stolki, *October, p. 48*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76*
Plastics Industry Profit Guide, *November, ber, p. 17*

2. Acetal Resin

An Interdisciplinary Approach to Automotive Plastics, P. Weiss, *October, p. 20*
Plastics Industry Profit Guide, *November, p. 17*

3. Acetal Polymer

Molecular Structure in Injection Molding Acetal Homopolymer, E. S. Clark, *July, p. 46*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76*

4. Acrylics

Acrylic Multipolymers, R. D. Deanin, *March, p. 90*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76.*
Plastics Industry Profit Guide, *November, p. 17*

5. Activators

Activator Performance in the Production of Vinyl Foam, R. E. Lally and L. M. Alter, *November, p. 69*

5a. Air Pollution

Plastics and Air Pollution, C. H. Parker, *December, p. 26*

6. Alkyd Resins

A Diallyl Chlorendate Retardant for Improved Flame Resistance, J. L. Thomas, *October, p. 30*

7. Applications

An Interdisciplinary Approach to Automotive Plastics, P. Weiss, *October, p. 20*
Applications of Polyolefin Powders, R. V. Jones and R. L. Rees, *June, p. 80*
Development of Plastics Automotive Fan Shrouds, J. W. Clark and L. K. Drake, *December, p. 60*
Development of Plastics Automotive Radiator Grilles, J. R. Madden, *October, p. 28*
Fiberglass-Reinforced Thermoplastics, R. D. Deanin, *June, p. 87*
Molded Aircraft Wheels of Epoxy Resin Reinforced with Noncontinuous Glass Filaments, N. L. Gamble, *January, p. 37*
Performance Properties of PVC Bottles Produced from Powder Blends, R. P. Becker, *August, p. 29*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76*
Plastics Fiber Optics, T. C. Hager, R. G. Brown, and B. N. Derick, *September, p. 36*
Plastics in the Medical Sciences, New York Section, *August, p. 70*
Process Cooling System Heats Plant, N. Haas, *February, p. 46*
Rigid Vinyl Parts Used in Business Machines, S. N. Kochis and E. G. Crosby, *September, p. 28*
Vinyl Marine Coatings in the Navy, J. R. Saroyan, *February, p. 59*

8. Automation

Automatic Molding of Thermosets, Connecticut Section, *October, p. 66*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*
Technical Advances in Automatic Molding, E. W. Vaill, *March, p. 60*
The Future of Electronic Preheating and Automatic Thermosetting Molding, R. F. Zecher and J. F. Trembley, *September, p. 58*

9. Automotive

An Interdisciplinary Approach to Automotive Plastics, P. Weiss, *October, p. 20*
Development of Plastics Automotive Fan Shrouds, J. W. Clark and L. K. Drake, *December, p. 60*
Development of Plastics Automotive Radiator Grilles, J. R. Madden, *October, p. 28*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76*
Plastics Fiber Optics, T. C. Hager, R. G. Brown, and B. N. Derick, *September, p. 36*
Thermoset Materials and the Automotive Design Engineer, W. R. Windover, *December, p. 55*
Vinyl Plastics, A. E. Whitney and P. A. Burnett, *June, p. 32*

B

10. Blocking

A Novel Technique for the Elimination of Blocking in Blown Film, G. L. Dighton, *April, p. 91*

11. Blow Molding

Blow Molding, G. E. Pickering, *June, p. 41*
Melt Elasticity in Linear Polyethylene Containing Long Branches, J. P. Hogan, C. T. Levett, and R. T. Werkman, *November, p. 87*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*
Tools for Injection-Blow Molding, E. I. Valyi, *July, p. 38*

12. Building

Forming, J. M. Margolis, *June, p. 44*
Plastics in Building, A. E. Sherr, *June, p. 24*
Plastics Materials Challenge to Building Codes and Specifications, R. T. Holtz, *May, p. 61*
Vinyl Plastics, A. E. Whitney and P. A. Burnett, *June, p. 32*

13. Butadiene-Styrene

Butadiene-Styrene Thermoplastic Elastomers, R. D. Deanin, *January, p. 45*

C

14. Cellular Plastics

Activator Performance in the Production of Vinyl Foam, R. E. Lally and L. M. Alter, *November, p. 69*
Economics of Polystyrene Foams, *January, p. 28*
Plastics Industry Profit Guide, *November, p. 17*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*

15. Chromatography

Gas Chromatography Applications in Plastics: A Review, A. H. Laurene and P. H. Latimer, *July, p. 50*

16. Coating

Coil Coating '66, Metal Products Manufacturing Magazine, *May, p. 67*
Electrostatic Powder Coatings, E. P. Miller, *August, p. 35*
High Gloss Organosols from High Speed, High Temperature Mixing, J. H. Biteman and R. A. Horton, *December, p. 78*
Prediction of Polyethylene Extrusion Coating Properties, E. J. Kaltenbacher, J. K. Lund, and R. A. Mendelson, *November, p. 55*
Vinyl Marine Coatings in the Navy, J. R. Saroyan, *February, p. 59*

17. Coloring

Coloring and Finishing of Plastics, R. H. Zabel, *June, p. 37*
High Gloss Organosols from High Speed, High Temperature Mixing, J. H. Biteman and R. A. Horton, *December, p. 78*

18. Color Measurement

Measurements of Color and Other Appearance Attributes in the Plastics Industry, R. S. Hunter, *February, p. 51*

19. Computers

Vinyl Formulating by Computer, Y. P. Tang and E. B. Harris, *November, p. 91*

SUBJECT AND TITLE INDEX 1967

A

1. ABS

An Interdisciplinary Approach to Automotive Plastics, P. Weiss, *October, p. 20*
Creep of Thermoplastics in the Glassy Region: Stress as a Reduced Variable, R. L. Bergen, Jr., *October, p. 57*
Development of Plastics Automotive Radiator Grilles, J. R. Madden, *October, p. 28*
Environmental Stress and Strain Testing of High Impact Polystyrene and ABS, T. J. Stolki, *October, p. 48*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76*
Plastics Industry Profit Guide, *November, ber, p. 17*

2. Acetal Resin

An Interdisciplinary Approach to Automotive Plastics, P. Weiss, *October, p. 20*
Plastics Industry Profit Guide, *November, p. 17*

3. Acetal Polymer

Molecular Structure in Injection Molding Acetal Homopolymer, E. S. Clark, *July, p. 46*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76*

4. Acrylics

Acrylic Multipolymers, R. D. Deanin, *March, p. 90*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76.*
Plastics Industry Profit Guide, *November, p. 17*

5. Activators

Activator Performance in the Production of Vinyl Foam, R. E. Lally and L. M. Alter, *November, p. 69*

5a. Air Pollution

Plastics and Air Pollution, C. H. Parker, *December, p. 26*

6. Alkyd Resins

A Diallyl Chlorendate Retardant for Improved Flame Resistance, J. L. Thomas, *October, p. 30*

7. Applications

An Interdisciplinary Approach to Automotive Plastics, P. Weiss, *October, p. 20*
Applications of Polyolefin Powders, R. V. Jones and R. L. Rees, *June, p. 80*
Development of Plastics Automotive Fan Shrouds, J. W. Clark and L. K. Drake, *December, p. 60*
Development of Plastics Automotive Radiator Grilles, J. R. Madden, *October, p. 28*
Fiberglass-Reinforced Thermoplastics, R. D. Deanin, *June, p. 87*
Molded Aircraft Wheels of Epoxy Resin Reinforced with Noncontinuous Glass Filaments, N. L. Gamble, *January, p. 37*
Performance Properties of PVC Bottles Produced from Powder Blends, R. P. Becker, *August, p. 29*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76*
Plastics Fiber Optics, T. C. Hager, R. G. Brown, and B. N. Derick, *September, p. 36*
Plastics in the Medical Sciences, New York Section, *August, p. 70*
Process Cooling System Heats Plant, N. Haas, *February, p. 46*
Rigid Vinyl Parts Used in Business Machines, S. N. Kochis and E. G. Crosby, *September, p. 28*
Vinyl Marine Coatings in the Navy, J. R. Saroyan, *February, p. 59*

8. Automation

Automatic Molding of Thermosets, Connecticut Section, *October, p. 66*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*
Technical Advances in Automatic Molding, E. W. Vaill, *March, p. 60*
The Future of Electronic Preheating and Automatic Thermosetting Molding, R. F. Zecher and J. F. Trembley, *September, p. 58*

9. Automotive

An Interdisciplinary Approach to Automotive Plastics, P. Weiss, *October, p. 20*
Development of Plastics Automotive Fan Shrouds, J. W. Clark and L. K. Drake, *December, p. 60*
Development of Plastics Automotive Radiator Grilles, J. R. Madden, *October, p. 28*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76*
Plastics Fiber Optics, T. C. Hager, R. G. Brown, and B. N. Derick, *September, p. 36*
Thermoset Materials and the Automotive Design Engineer, W. R. Windover, *December, p. 55*
Vinyl Plastics, A. E. Whitney and P. A. Burnett, *June, p. 32*

B

10. Blocking

A Novel Technique for the Elimination of Blocking in Blown Film, G. L. Dighton, *April, p. 91*

11. Blow Molding

Blow Molding, G. E. Pickering, *June, p. 41*
Melt Elasticity in Linear Polyethylene Containing Long Branches, J. P. Hogan, C. T. Levett, and R. T. Werkman, *November, p. 87*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*
Tools for Injection-Blow Molding, E. I. Valyi, *July, p. 38*

12. Building

Forming, J. M. Margolis, *June, p. 44*
Plastics in Building, A. E. Sherr, *June, p. 24*
Plastics Materials Challenge to Building Codes and Specifications, R. T. Holtz, *May, p. 61*
Vinyl Plastics, A. E. Whitney and P. A. Burnett, *June, p. 32*

13. Butadiene-Styrene

Butadiene-Styrene Thermoplastic Elastomers, R. D. Deanin, *January, p. 45*

C

14. Cellular Plastics

Activator Performance in the Production of Vinyl Foam, R. E. Lally and L. M. Alter, *November, p. 69*
Economics of Polystyrene Foams, *January, p. 28*
Plastics Industry Profit Guide, *November, p. 17*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*

15. Chromatography

Gas Chromatography Applications in Plastics: A Review, A. H. Laurene and P. H. Latimer, *July, p. 50*

16. Coating

Coil Coating '66, Metal Products Manufacturing Magazine, *May, p. 67*
Electrostatic Powder Coatings, E. P. Miller, *August, p. 35*
High Gloss Organosols from High Speed, High Temperature Mixing, J. H. Biteman and R. A. Horton, *December, p. 78*
Prediction of Polyethylene Extrusion Coating Properties, E. J. Kaltenbacher, J. K. Lund, and R. A. Mendelson, *November, p. 55*
Vinyl Marine Coatings in the Navy, J. R. Saroyan, *February, p. 59*

17. Coloring

Coloring and Finishing of Plastics, R. H. Zabel, *June, p. 37*
High Gloss Organosols from High Speed, High Temperature Mixing, J. H. Biteman and R. A. Horton, *December, p. 78*

18. Color Measurement

Measurements of Color and Other Appearance Attributes in the Plastics Industry, R. S. Hunter, *February, p. 51*

19. Computers

Vinyl Formulating by Computer, Y. P. Tang and E. B. Harris, *November, p. 91*

Your Company May Need Electronic Data Processing, J. M. Margolis, *June, p. 104*

20. Cooling

Development of Plastics Automotive Fan Shrouds, J. W. Clark and L. K. Drake, *December, p. 60*

21. Cross-Linking

The Cross-Linking of Polyester Resins Under Thin Film Conditions, G. S. Learmonth and G. Pritchard, *December, p. 46*

22. Curing

Commercial Aspects of Instantaneous Radiation Cure of Reinforced Plastics, W. Brenner and W. F. Oliver, *April, p. 33*

D

23. Diallyl Phthalate

A Diallyl Chlorendate Retardant for Improved Flame Resistance, J. D. Thomas, *October, p. 30*

24. Die Design

Carbide Die Plates for Underwater Pelletizing, A. King, *February, p. 35*
Extrusion Die Nomenclature, SPE Extrusion Professional Activities Group, *August, p. 47*

E

25. Economics

Economics of Polystyrene Foams, *January, p. 28*
Plastics Industry Profit Guide, *November, p. 17*
Process Cooling System Heats Plant, N. Haas, *February, p. 46*
Processing Economics: Determining True Machine-Hour Costs, R. L. Daniel and M. J. Cooper, *April, p. 75*

26. Education

College Teaching, F. W. Billmeyer, Jr., *March, p. 34*
Educational Needs of the Plastics Industry, R. D. Deanin, *September, p. 55*
Education—First Plastics Course at Upstate New York College a Success, M. T. Orinik, *August, p. 62*
Plastics Education Program at Dallas Generates Nationwide Interest, W. K. McConnell, Jr., and I. J. Kelley, *March, p. 56*

27. Electronic Data Processing

Computer Aided Vinyl Formulating, Y. P. Tang and E. B. Harris, *November, p. 91*
Your Company May Need Electronic Data Processing, J. M. Margolis, *June, p. 104*

28. Encapsulating

Flash Prevention on Insert Surfaces During Transfer Molding, P. E. Smith, *November, p. 50*

29. Environmental Resistance

Accelerated Outdoor Exposure Testing, C. R. Caryl, *January, p. 49*

30. Epoxies

A Diallyl Chlorendate Retardant for Improved Flame Resistance, J. L. Thomas, *October, p. 30*
Molded Aircraft Wheels of Epoxy Resin Reinforced with Noncontinuous Glass Filaments, N. L. Gamble, *January, p. 37*
Plastics Industry Profit Guide, *November, p. 17*

31. Ethylene-Vinyl Acetate

Formulating Ethylene Vinyl Acetate Copolymers, J. Fischer and K. S. Tenney, *December, p. 65*
Injection Molding Ethylene-Vinyl Acetate Copolymers, J. Fischer and K. S. Tenney, *April, p. 83*

32. Exposition

Report in Interplas 67, A. L. Griff, *August, p. 50*
Report on Kunststoffe 67, A. Griffe, *November, p. 39*

33. Extrusion

An Improved Mixing Screw Design, B. H. Maddock, *July, p. 23*
A Phenylene Thermoplastic for Use at 500°F, B. A. Benson, R. P. Bringer, H. A. Vogel, and N. L. Watkins, *July, p. 33*
Application of Coordinated Drive Systems for Plastics Extrusion Lines, R. H. Soderberg, *March, p. 72*
Carbide Die Plates for Underwater Pelletizing, A. King, *February, p. 35*
Composite Polyolefin Films, H. A. Elliott and L. F. Erb, *September, p. 51*
Effect of Feed Condition on Screw Conveying and Plastifying, R. M. Griffith, *November, p. 65*
Extruder Screw-Design Developments—Fast Moving Evolution, D. J. Schmidt, *April, p. 59*
Extrusion and Injection—Machines and Materials, Eastern New England Section, *January, p. 54*
Extrusion Die Nomenclature, SPE Extrusion Professional Activities Group, *August, p. 47*
Extrusion of Thermoplastic Polyurethanes, F. L. Pittenger, *December, p. 50*
Extrusion of Urethane Elastomer Resins, W. E. Foster, *August, p. 43*
Extrusion Screw Design for Polysulfone, A. M. Fazzari, B. H. Maddock, and R. B. Staub, *January, p. 31*
Flush Diaphragm Mechanical Gage for Melt-Pressure Measurements, M. R. Harris, *September, p. 26*
Heat Transfer Effects During Processing of Nylon Resins, E. Heyman, *October, p. 37*
Melt Elasticity in Linear Polyethylene Containing Long Branches, J. P. Hogan, C. T. Levett, and R. T. Werkman, *November, p. 87*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*
Prediction of Polyethylene Extrusion Coating Properties, E. J. Kaltenbacher, J. K. Lund, and R. A. Mendelson, *November, p. 55*
Single- and Twin-Screw Extruders—A Technical Comparison, F. Martelli, *June, p. 53*
Technical Advances in Automatic Molding, E. W. Vaill, *March, p. 60*
What You Can Expect From an Extruder Manufacturer Today and Tomorrow, N. V. Fay, *May, p. 55*

F

34. Film

A Novel Technique for the Elimination of Blocking in Blown Film, G. L. Dighton, *April, p. 91*
Composite Polyolefin Films, H. A. Elliott and L. F. Erb, *September, p. 51*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*
The Cross-Linking of Polyester Resins Under Thin Film Conditions, G. S. Learmonth and G. Pritchard, *December, p. 46*

35. Finishing

Coloring and Finishing of Plastics, R. H. Zabel, *June, p. 37*

36. Flame Resistance

A Diallyl Chlorendate Retardant for Improved Flame Resistance, J. L. Thomas, *October, p. 30*
Fire-Resistant Hydraulic Fluids for the Plastics Industry, J. A. Mathe, *July, p. 17*

37. Flash

Flash Prevention on Insert Surfaces During Transfer Molding, P. E. Smith, *November, p. 50*

38. Foams

See Cellular Plastics

G

39. Glass Fiber

See Reinforced Plastics

H

40. Heat Transfer

See Insulation

41. Hydraulic Fluids

Fire-Resistant Hydraulic Fluids for the Plastics Industry, J. A. Mathe, *July, p. 17*

42. Hydrospace

External Hydrostatic Pressure Testing of Filament-Wound Composites for Hydrospace Applications, F. C. Wright and G. D. Lee, *March, p. 103*

I

43. Impact Tests

Impact Tests, Their Correlation and Significance, R. H. Shoulberg and J. J. Gouza, *December, p. 32*

44. Injection Molding

A Collapsible Core, J. Andras, *May, p. 35*
A Phenylene Thermoplastic for Use at 500°F, B. A. Benson, R. P. Bringer, H. A. Vogel, and N. L. Watkins, *July, p. 33*
Development of Plastics Automotive Radiator Grilles, J. R. Madden, *October, p. 28*
Extrusion and Injection—Machines and Materials, Eastern New England Section, *January, p. 54*

Injection Molding, J. C. Houston, *June, p. 28*
Injection Molding Ethylene-Vinyl Acetate Copolymers, J. Fischer and K. S. Tenney, *April, p. 83*
Injection Molding of Shapes of Rotational Symmetry with Multiaxial Orientation, K. J. Cleereman, *October, p. 43*
Molecular Structure in Injection Molding Acetal Homopolymer, E. S. Clark, *July, p. 46*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November. p. 76*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*
Polysulfone, H. D. Bassett, *May, p. 45*
Processing Economics: Determining True Machine-Hour Costs, R. L. Daniel and M. J. Cooper, *April, p. 75*
Technical Advances in Automatic Molding, E. W. Vaill, *March, p. 60*
Tools for Injection-Blow Molding, E. I. Valyi, *July, p. 38*

45. Instrumentation

Accelerated Outdoor Exposure Testing, C. R. Caryl, *January, p. 49*
Flush Diaphragm Mechanical Gage for Melt-Pressure Measurements, M. A. Harris, *September, p. 26*
Measurements of Color and Other Appearance Attributes in the Plastics Industry, R. S. Hunter, *February, p. 51*

46. Insulation

Insulation Resistance Measurement Problems as Applied to Production Testing and Quality Control, D. E. Blackmer and G. A. Pillivant, *December, p. 73*
Thermal Conductivity of High Polymers, T. G. Smith and R. Hoge, *April, p. 67*
Volume Resistivity by Means of Microwave Measurements in Plasticized Polyvinyl Chloride, N. L. Conger, A. T. Zavodny, and W. R. Sorenson, *November, p. 82*

L

47. Laminating

A Diallyl Chlorendate Retardant for Improved Flame Resistance, J. L. Thomas, *October, p. 30*
Composite Polyolefin Films, H. A. Elliott and L. F. Erb, *September, p. 51*

48. Lubricants

Waxes as Lubricants in Plastics Processing, G. Illmann, *June, p. 71*

M

49. Materials

A Phenylene Thermoplastic for Use at 500°F, B. A. Benson, R. P. Bringer, H. A. Vogel, and N. L. Watkins, *July, p. 33*
Acrylic Multipolymers, R. D. Deanin, *March, p. 90*
Aliphatic Diisocyanate, R. D. Deanin, *August, p. 56*
Butadiene-Styrene Thermoplastic Elastomers, R. D. Deanin, *January, p. 45*
Chlorostyrenated Polyesters, R. D. Deanin, *July, p. 30*
Fiberglass-Reinforced Thermoplastics R. D. Deanin, *June, p. 87*
Formulating Ethylene Vinyl Acetate Copolymers, J. Fischer and K. S. Tenney, *December, p. 65*
Melt Elasticity in Linear Polyethylene Containing Long Branches, J. P. Hogan, C. T. Levett, and R. T. Werkman, *November, p. 87*
Nylon 12, R. D. Deanin, *September, p. 44*
Phenolics, Too Good to be Outmoded, C. F. Martino, *March, p. 96*
Poly-1-butene, R. D. Deanin, *January, p. 43*
Poly(4-Methylpentene-1), R. D. Deanin, *February, p. 39*
Polysulfone, H. D. Bassett, *May, p. 45*
Precombined Molding Materials, C. Ferstenberger and R. W. Meyer, *February, p. 25*
The Physical Properties of Vibrin-Mat with Varying Molding Conditions, J. P. Walton, *February, p. 29*
Vacuum Melting and Maraging Steels, C. N. Younkin, *June, p. 65*
Vinyl Chloride-Propylene Copolymers, R. D. Deanin, *May, p. 50*
Vinyl Plastics, A. E. Whitney and P. A. Burnett, *June, p. 32*

50. Melamine-Urea

Plastics Industry Profit Guide, *November, p. 17*

51. Mergers and Acquisitions

Plastics Industry Profit Guide, *November, p. 17*

52. Mold Design

A Collapsible Core, J. Andras, *May, p. 35*
Injection Molding Ethylene-Vinyl Acetate Copolymers, J. Fischer and K. S. Tenney, *April, p. 83*
Metal Mold Design and Construction, C. N. Drevalas, *June, p. 38*
Mold Texturing by Photo Etching, W. M. Schumacher, *September, p. 22*
New Designs for Mold Construction—Right Off the Boards, Philadelphia Section, *January, p. 60*
Processing and Manufacturing Plastics, D. A. Dearle, *March, p. 28*
Rigid Vinyl Parts Used in Business Machines, S. N. Kochis and E. G. Crosby, *September, p. 28*
Rotational Casting of Powders, R. E. Soderquist, *July, p. 42*
Vacuum Melting and Maraging Steels, C. N. Younkin, *June, p. 65*

53. Molding

A Diallyl Chlorendate Retardant for Improved Flame Resistance, J. L. Thomas, *October, p. 30*
A Phenylene Thermoplastic for Use at 500°F, B. A. Benson, R. P. Bringer, H. A. Vogel, and N. L. Watkins, *July, p. 33*
Applications of Polyolefin Powders, R. V. Jones and R. L. Rees, *June, p. 80*
Automatic Molding of Thermosets, Connecticut Section, *October, p. 66*
Injection Molding of Shapes of Rotational Symmetry with Multiaxial Orientation, K. J. Cleereman, *October, p. 43*
Flash Prevention on Insert Surfaces During Transfer Molding, P. E. Smith, *November, p. 50*
Molding Techniques for Sheet Molding Compound, A. J. Tiffan, *February, p. 21*
Mold Texturing by Photo Etching, W. M. Schumacher, *September, p. 22*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*
Polysulfone, H. D. Bassett, *May, p. 45*
Precombined Molding Materials, O. Ferstenberg and R. W. Meyer, *February, p. 25*
Recent Developments and Applications in High-Frequency Preheating of Thermosets, D. A. Daniels, *February, p. 44*
Rigid Vinyl Parts Used in Business Machines, S. N. Kochis and E. G. Crosby, *September, p. 28*
Shrinkage of Phenolic Compounds, H. D. Jost and D. A. Akin, *November, p. 45*
The Acetic Acid Test—Useful Tool for Stress Control and Plating Quality, E. Schwartz and J. C. Hartley, *March, p. 110*
The Future of Electronic Preheating and Automatic Thermosetting Molding, R. F. Zecher and J. F. Trembley, *September, p. 58*
The Physical Properties of Vibrin-Mat with Varying Molding Conditions, J. P. Walton, *February, p. 29*
Thermosetting Molding, J. F. O'Brien, *June, p. 47*
Tools for Injection-Blow Molding, E. I. Valyi, *July, p. 38*

54. Molding Equipment

A Collapsible Core, J. Andras, *May, p. 35*
New Designs for Mold Construction—Right Off the Boards, Philadelphia Section, *January, p. 60*
Technical Advances in Automatic Molding, E. W. Vaill, *March, p. 60*
Vacuum Melting and Maraging Steels, C. N. Younkin, *June, p. 65*

N

55. Nylon

An Interdisciplinary Approach to Automotive Plastics, P. Weiss, *October, p. 20*
Heat Transfer Effects During Processing of Nylon Resins, E. Heyman, *October, p. 37*
Nylon 12, R. D. Deanin, *September, p. 44*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76*

O

56. Optics

An Interdisciplinary Approach to Automotive Plastics, P. Weiss, *October, p. 20*
Plastics Fiber Optics, T. C. Hager, R. G. Brown, and B. N. Derick, *September, p. 36*

57. Organosols

High Gloss Organosols from High Speed, High Temperature Mixing, J. H. Biteman and R. A. Horton, *December, p. 78*

P

58. Packaging

Composite Polyolefin Films, H. A. Elliott and L. F. Erb, *September, p. 51*
Forming, J. M. Margolis, *June, p. 44*
Research in Plastics and Packaging as a Career, W. T. Harris, *March, p. 32*
Vinyl Plastics, A. E. Whitney and P. A. Burnett, *June, p. 32*

59. Paints

See Coloring

60. Personnel

Career Opportunities in Plastics Technical Service, W. E. Grigsby, *March, p. 22*
Challenging Careers Available in Plastics Research and Development, W. D. Niederhauser, *March, p. 38*
College Teaching, F. W. Billmeyer, Jr., *March, p. 34*
Overseas Opportunities in Plastics, Z. Merszei, *March, p. 36*
Processing and Manufacturing Plastics, D. A. Dearle, *March, p. 28*
Research in Plastics and Packaging as a Career, W. T. Harris, *March, p. 32*
Seeking Employment in Plastics, B. Davis, *March, p. 19*
Technical Sales in Plastics, E. C. Cathcart, *March, p. 25*

61. Phenolics

Phenolics, Too Good to be Outmoded, C. F. Martino, *March, p. 96*
Plastics Industry Profit Guide, *November, p. 17*
Shrinkage of Phenolic Compounds, H. D. Jost and D. A. Akin, *November, p. 45*
Thermoset Materials and the Automotive Design Engineer, W. R. Windover, *December, p. 55*

62. Photopolymers

Photopolymers, Mid-Hudson Section, *September, p. 18*

63. Pigments

See Coloring

64. Plasticizers

Vinyl Formulating by Computer, Y. P. Tang and E. B. Harris, *November, p. 91*

65. Plastisols

Effect of Acetate Content on Physical Properties of Copolymer Plastisol Resin, C. W. Johnston and C. H. Brower, *June, p. 106*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*

66. Poly-1-butene

Poly-1-butene, R. D. Deanin, *January, p. 43*

67. Poly(4-Methylpentene-1)

Poly(4-Methylpentene-1), R. D. Deanin, *February, p. 39*

68. Polyester

A Diallyl Chlorendate Retardant for Improved Flame Resistance, J. L. Thomas, *October, p. 30*
An Interdisciplinary Approach to Automotive Plastics P. Weiss, *October, p. 20*
Commercial Aspects of Instantaneous Radiation Cure of Reinforced Plastics, W. Brenner and W. F. Oliver, *April, p. 33*
Chlorostyrenated Polyesters, R. D. Deanin, *July, p. 30*
Plastics Industry Profit Guide, *November, p. 17*
The Cross-Linking of Polyester Resins Under Thin Film Conditions, G. S. Learmonth and G. Pritchard, *December, p. 46*

69. Polyethylene

Applications of Polyolefin Powders, R. V. Jones and R. L. Rees, *June, p. 80*
Carbide Die Plates for Underwater Pelletizing, A. King, *February, p. 35*
Melt Elasticity in Linear Polyethylene Containing Long Branches, J. P. Hogan, C. T. Levett, and R. T. Werkman, *November, p. 87*
Plastics Industry Profit Guide, *November, p. 17*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76*
Prediction of Polyethylene Extrusion Coating Properties, E. J. Kaltenbacher, J. K. Lund, and R. A. Mendelson, *November, p. 55*

70. Polymer Structure

Molecular Structure in Injection Molding Acetal Homopolymer, E. S. Clark, *July, p. 46*
Polymer Structure and Properties, S. Matsuoka, *June, p. 40*
Prediction of Polyethylene Extrusion Coating Properties, E. J. Kaltenbacher, J. K. Lund, and R. A. Mendelson, *November, p. 55*

71. Polymerization

The Cross-Linking of Polyester Resins Under Thin Film Conditions, G. S. Learmonth and G. Pritchard, *December, p. 46*
Two-Step Bulk Polymerization of Vinyl Chloride, J. C. Thomas, *October, p. 61*

72. Polymethyl Methacrylate

An Interdisciplinary Approach to Automotive Plastics, P. Weiss, *October, p. 20*
Effect of Feed Condition on Screw Conveying and Plastifying, R. M. Griffith, *November, p. 65*
Plastics Industry Profit Guide, *November, p. 17*

73. Polyolefins

A Novel Technique for the Elimination of Blocking in Blown Film, G. L. Dighton, *April, p. 91*
Applications of Polyolefin Powders, R. V. Jones and R. L. Rees, *June, p. 80*
Composite Polyolefin Films, H. A. Elliott and L. F. Erb, *September, p. 51*
Poly-1-butene, R. D. Deanin, *January, p. 43*
Polyolefin Bibliography, R. Hansen, *June, p. 45*

74. Polyoxymethylene

Molecular Structure in Injection Molding Acetal Homopolymer, E. S. Clark, *July, p. 46*

75. Polyphenylene

A Phenylene Thermoplastic for Use at 500°F, B. A. Benson, R. P. Bringer, H. A. Vogel, and N. L. Watkins, *July, p. 33*

76. Polypropylene

Applications of Polyolefin Powders, R. V. Jones and R. L. Rees, *June, p. 80*
Carbide Die Plates for Underwater Pelletizing, A. King, *February, p. 35*
Plastics Industry Profit Guide, *November, p. 17*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76*

77. Polystyrene

An Interdisciplinary Approach to Automotive Plastics, P. Weiss, *October, p. 20*
Economics of Polystyrene Foams, *January, p. 28*
Environmental Stress and Strain Testing of High Impact Polystyrene and ABS, T. J. Stolki, *October, p. 48*
Plastics Industry Profit Guide, *November, p. 17*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*

78. Polysulfone

Extrusion Screw Design for Polysulfone, A. M. Fazzari, B. H. Maddock, and R. B. Staub, *January, p. 31*
Polysulfone, H. D. Bassett, *May, p. 45*

79. Polytetrafluoroethylene

Flash Prevention on Insert Surfaces During Transfer Molding, P. E. Smith, *November, p. 50*

80. Polyurethane

Extrusion of Thermoplastic Polyurethanes, F. L. Pittenger, *December, p. 50*
Extrusion of Urethane Elastomer Resins, W. E. Foster, *August, p. 43*

81. Polyvinyl Chloride

Activator Performance in the Production of Vinyl Foam, R. E. Lally and L. M. Alter, *November, p. 69*
Creep of Thermoplastics in the Glassy Region: Stress as a Reduced Variable, R. L. Bergen, Jr., *October, p. 57*
High Gloss Organosols from High Speed, High Temperature Mixing, J. H. Biteman, and R. A. Horton, *December, p. 78*
Plastics Industry Profit Guide, *November, p. 17*
Performance Properties of PVC Bottles Produced from Powder Blends, R. P. Becker, *August, p. 29*
Rheology of Rigid PVC Defined in Terms of Commercial Production Conditions, R. A. Paradis, *July, p. 54*
Two-Step Bulk Polymerization of Vinyl Chloride, J. C. Thomas, *October, p. 61*
Vinyl Plastics, A. E. Whitney and P. A. Burnett, *June, p. 32*

Volume Resistivity by Means of Microwave Measurements in Plasticized Polyvinyl Chloride, N. L. Conger, A. T. Zavodny, and W. R. Sorenson, *November, p. 82*

82. PVC Copolymers

Vinyl Chloride-Propylene Copolymers, R. D. Deanin, *May, p. 50*
Vinyl Plastics, A. E. Whitney and P. A. Burnett, *June, p. 32*

83. Polyvinylidene Fluoride

Flash Prevention on Insert Surfaces During Transfer Molding, P. E. Smith, *November, p. 50*

84. Powders

Applications of Polyolefin Powders, R. V. Jones and R. L. Rees, *June, p. 80*
Electrostatic Powder Coatings, E. P. Miller, *August, p. 35*
Performance Properties of PVC Bottles Produced from Powder Blends, R. P. Becker, *August, p. 29*
Plastic Powders II: Processes, Engineered Applications, Akron Section, *February, p. 66*
Rotational Casting of Powders, R. E. Soderquist, *July, p. 42*

85. Properties

Effect of Acetate Content on Physical Properties of Copolymer Plastisol Resin, C. W. Johnston and C. H. Brower, *June, p. 106*
Measurements of Color and Other Appearance Attributes in the Plastics Industry, R. S. Hunter, *February, p. 51*
Thermal Conductivity of High Polymers, T. G. Smith and R. Hoge, *April, p. 67*

86. Propylene Copolymers

Vinyl Chloride-Propylene Copolymers, R. D. Deanin, *May, p. 50*

Q

87. Quality Control

Insulation Resistance Measurement Problems as Applied to Production Testing and Quality Control, D. E. Blackmer and G. A. Pillivant, *December, p. 73*

R

88. Reinforced Plastics

An Interdisciplinary Approach to Automotive Plastics, P. Weiss, *October, p. 20*
Chlorostyrenated Polyesters, R. D. Deanin, *July, p. 30*
Commercial Aspects of Instantaneous Radiation Cure of Reinforced Plastics, W. Brenner and W. F. Oliver, *April, p. 33*
External Hydrostatic Pressure Testing of Filament-Wound Composites for Hydrospace Applications, F. C. Wright and G. D. Lee, *March, p. 103*
Fiberglass-Reinforced Thermoplastics, R. D. Deanin, *June, p. 87*
Molded Aircraft Wheels of Epoxy Resin Reinforced with Noncontinuous Glass Filaments, N. L. Gamble, *January, p. 37*
Molding Techniques for Sheet Molding Compound, A. J. Tiffan, *February, p. 21*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*
Polysulfone, H. D. Bassett, *May, p. 45*
Precombined Molding Materials, C. Ferstenberg and R. W. Meyer, *February, p. 25*
Reinforced Plastics, D. J. Thrash, *June, p. 43*
Reinforced Plastics—New Frontiers '67, Cleveland Section, *August, p. 72*
The Physical Properties of Vibrin-Mat with Varying Molding Conditions, J. P. Walton, *February, p. 29*

89. Regional Technical Conference

Automatic Molding of Thermosets, Connecticut Section, *October, p. 66*
Extrusion and Injection—Machines and Materials, Eastern New England Section, *January, p. 54*
New Designs for Mold Construction—Right Off the Boards, Philadelphia Section, *January, p. 60*
Photopolymers, Mid-Hudson Section, *September, p. 18*
Plastic Powders II: Processes, Engineered Applications, Akron Section, *February, p. 66*
Plastics in the Medical Sciences, New York Section, *August, p. 70*
Reinforced Plastics—New Frontiers '67, Cleveland Section, *August, p. 72*
Stability of Plastics, Baltimore-Washington Section, *July, p. 66*
Vinyls in Building, Palisades Section, *September, p. 20*

90. Rheology

An Analysis of Polymer Melt Flow in Capillaries Including Pressure Effects, I. J. Duvdevani and I. Klein, *December, p. 41*
Effect of Acetate Content on Physical Properties of Copolymer Plastisol Resin, C. W. Johnston and C. W. Brower, *June, p. 106*
Fingerprinting Thermoset Molding Compounds Through Dynamic Flow Testing, S. N. Varadhachary, *June, p. 99*
Prediction of Polyethylene Extrusion Coating Properties, E. J. Kaltenbacher, J. K. Lund, and R. A. Mendelson, *November, p. 55*
Rheology of Rigid PVC Defined in terms of Commercial Production Conditions, R. A. Paradis, *July, p. 54*

91. Rotational Casting

Rotational Casting of Powders, R. E. Soderquist, *July, p. 42*

S

92. Screw Design

An Improved Mixing Screw Design, B. H. Maddock, *July, p. 23*
Extruder Screw-Design Developments—Fast Moving Evolution, D. J. Schmidt, *April, p. 59*
Extrusion Screw Design for Polysulfone, A. M. Fazzari, B. H. Maddock, and R. B. Staub, *January, p. 31*
Single- and Twin-Screw Extruders—A Technical Comparison, F. Martelli, *June, p. 53*

93. Society

Annual Report, *May, p. 17*
Constitution and By-Laws of the Society of Plastics Engineers, *August, p. 309*
Detroit Section Profile, E. L. Adamson and L. F. Smith, *September, p. 63*
New York Section Profile, L. Noe, *August, p. 78*
1967 ANTEC Program, *March, p. 81*
North Texas Section Profile, W. K. McConnell, Jr., *May, p. 58*
Officers for 1967, *March, p. 116*
PAG Newsletter, *January, p. 69*
PAG Newsletter, *October, p. 74*
Pratt Institute Student Chapter Profile, L. Markiewicz, *October, p. 72*
Roster: Lists of National Officers, Committee Chairmen, and Members, *August, p. 98*
Silver Anniversary ANTEC Announcement, *March, p. 80*
Silver Anniversary Annual Technical Conference (ANTEC), *April, p. 35*
Silver Anniversary Pathway, *May, p. 13*
Silver Anniversary Pathway—The History of SPE, J. E. DuBois and SPE Staff, *June, p. 95*
SPE Goals for 1967-1968, *July, p. 7*
Western New England Section Profile, W. S. Larson, *January, p. 58*

94. Stabilizers

Gas Chromatography Applications in Plastics: A Review, A. H. Laurene and P. H. Latimer, *July, p. 50*
Stability of Plastics, Baltimore-Washington Section, *July, p. 66*

95. Standards

Plastics Materials Challenge to Building Codes and Specifications, R. T. Holtz, *May, p. 61*
Plastics Standards Digest, *April, p. 95*

96. Statistics

See Quality Control

T

97. Testing

Accelerated Outdoor Exposure Testing, C. R. Caryl, *January, p. 49*
Environmental Stress and Strain Testing of High Impact Polystyrene and ABS, T. J. Stolki, *October, p. 48*
External Hydrostatic Pressure Testing of Filament-Wound Composites for Hydrospace Applications, F. C. Wright and G. D. Lee, *March, p. 103*
Fingerprinting Thermoset Molding Compounds Through Dynamic Flow Testing, S. N. Varadhachary, *June, p. 99*
Impact Tests, Their Correlation and Significance, R. H. Shoulberg and J. J. Gouza, *December, p. 32*

Insulation Resistance Measurement Problems as Applied to Production Testing and Quality Control, D. E. Blackmer and G. A. Pillivant, *December, p. 73*
Measurements of Color and Other Appearance Attributes in the Plastics Industry, R. S. Hunter, *February, p. 51*
The Acetic Acid Test—Useful Tool for Stress Control and Plating Quality, E. Schwartz and J. C. Hartley, *March, p. 110*

98. Thermoforming

Forming, J. M. Margolis, *June, p. 44*
Plastics Manufacturing Automation, G. E. Pickering, *January, p. 16*

99. Thermoplastics

A Phenylene Thermoplastic for Use at 500°F, B. A. Benson, R. P. Bringer, H. A. Vogel and N. L. Watkins, *July, p. 33*
Butadiene-Styrene Thermoplastic Elastomers, R. D. Deanin, *January, p. 45*
Creep of Thermoplastics in the Glassy Region: Stress as a Reduced Variable, R. L. Bergen, Jr., *October, p. 57*
Extrusion of Thermoplastic Polyurethanes, F. L. Pittenger, *December, p. 50*
Fiberglass-Reinforced Thermoplastics, R. D. Deanin, *June, p. 87*
Flush Diaphragm Mechanical Gage for Melt-Pressure Measurements, M. R. Harris, *September, p. 26*
Technical Advances in Automatic Molding, E. W. Vaill, *March, p. 60*

100. Thermosets

Automatic Molding of Thermosets, Connecticut, *October, p. 66*
Fingerprinting Thermoset Molding Compounds Through Dynamic Flow Testing, S. N. Varadhachary, *June, p. 99*
Plastics Industry Profit Guide, *November, p. 17*
Recent Developments and Applications in High-Frequency Preheating of Thermosets, D. A. Daniels, *February, p. 44*
Technical Advances in Automatic Molding, E. W. Vaill, *March, p. 60*
The Future of Electronic Preheating and Automatic Thermosetting Molding, R. F. Zecher and J. F. Trembley, *September, p. 58*
Thermosetting Molding, J. F. O'Brien, *June, p. 47*

101. Tooling

See **Mold Design, Molding, Molding Equipment**

V

102. Vinyl Acetate Copolymers

Effect of Acetate Content on Physical Properties of Copolymer Plastisol Resin, C. W. Johnston and C. W. Brower, *June, p. 106*
Formulating Ethylene Vinyl Acetate Copolymers, J. Fischer and K. S. Tenney, *December, p. 65*

103. Vinyls

See also **Polyvinyl Chloride, Polyvinyl Dichloride, Polyvinyl Fluoride, PVC Copolymers**
Vinyl Formulating by Computer, Y. P. Tang and E. B. Harris, *November, p. 91*
Plastics and Their Use in the Automobile Body, E. P. DePalma and J. L. Chaivre, *November, p. 76*
Rigid Vinyl Parts Used in Business Machines, S. N. Kochis and E. G. Crosby, *September, p. 28*
Vinyl Marine Coatings in the Navy, J. R. Saroyan, *February, p. 59*
Vinyls in Building, Palisades Section, *September, p. 20*

104. Viscosity

See **Rheology**

W

105. Weathering

Thermal-Oxidative Behavior of Ethylene Alkyl Acrylate Copolymers
B. Wargotz

The Determination of Acrylonitrile-Butadiene-Styrene Terpolymer in Polyvinyl Chloride Compounds Using Infrared or Near-Infrared Spectrophotometry
W. H. Greive and Diana D. Doepken

Static Testing of Polyethylene
H. M. Quackenbos

The Significance of a Particle-Flow Process in PVC Melts
A. R. Berens and V. L. Folt

A Methanol Treatment for the Improvement of Boron Filament-Epoxy Resin Composite Strength
D. L. Barney and A. L. Speece

Plasticizing Ethylene Copolymers
L. H. Wartman and H. L. Batleman

Thermogravimetric Analysis of Vinyl Chloride—Propylene Copolymers and Other PVC Resins
L. Weintraub, J. Zufall and C. A. Heiberger

Adhesion of Carboxyl Containing Polyolefins
W. H. Smarook and S. Bonotto

Suspension Polymerization Kinetics of Vinyl Chloride
E. Farber and Marvin Koral
